WATER IS OUR WORLD

RAISING AWARENESS
OF THE VALUE OF WATER

an event by

H2O IS THE EXHIBITION OF INDUSTRIAL SUPPLY CHAINS THAT ADD VALUE TO WATER

ACCADUEO offers a platform to all players who enhance the value of water in its various fields of application: civil, industrial and agricultural. With its focus on public interest, the show aims to build an advanced industrial supply chain capable of giving impetus to the sector.

ACCADUEO highlights outstanding international models and above all Italian talent, expertise and creative solutions with the aim of developing business opportunities at home and abroad and keeping up with today's innovations and tomorrow's technologies.

THE THREE THEME SECTIONS

H₂O
URBAN

The meeting and discussion venue for the entire water services sector, where participants can discover the latest technologies, treatment systems, equipment and services for management of mains water, process water and wastewater for civil use.

H₂O
INDUSTRY

The section hosting suppliers and producers of technology, treatment systems, equipment and services devoted to water management in industry.

CH₄

The theme section devoted to technologies and systems for gas transport and distribution catering for a sector with excellent growth prospects.
